- Positive outlook and optimistic attitude

EDUCATION

Florida Interactive Entertainment Academy @ UCF

MS - Interactive Entertainment
2022/Present

University of Florida

BS - Digital Arts and Sciences
2017/2021

EXPERIENCE

IT Intern | James Moore & Co | 2021

My primary responsibility was to create applications for the IT team. The goal of these applications was to streamline workflows, and they were written in C++ and Python.

Gameplay Programmer | VHA | 2023

I programmed the gameplay loop of a training simulator for the Veterans Health Association. This included the creation of a dialogue system, interaction system, and level progression system. The simulator was created in Unity using C#.

Lead Programmer | Get in the Box Studios | 2022 - Present

My responsibilities as lead programmer involved sprint planning, system design, code reviews, and code base management. I also assisted the team by implementing the AI for our game - Deakweaver: Decent into Chaos.
